OAKDALE
RECREATION

The Oakdale Wellness 50+ new initiative is to begin creating a supportive, Dementia Friendly Community in Oakdale.

What is Dementia?

Dementia is a general term for a loss of memory and other thinking abilities that is serious enough to interfere with activities of daily life.

Interested in learning more?

Please join us at our first Speaker/Tour event:
**Alzheimer's Disease: New Approaches to
Treatment and Prevention**

Presented by Dr. William H. Frey II, PhD -
Founder and Co-Director of the Alzheimer's
Research Center at Regions Hospital.

- Take the first step and attend this free event, which includes a tour of the new HealthPartners Neuroscience Center.
- The next step is to get involved with Oakdale Wellness 50+ in making Oakdale a Dementia Friendly City.
